UX & DESIGN

- Figma (MCP & Dev Mode)
- UX Research, Usability Testing & User Interviews
- User Personas, User Flows, Journey Mapping
- Wireframing
- Prototyping (Flows, Interactions & Animations)
- Responsive Web Design
- WCAG Accessibility
- Design Tokens, Component & Variant Design
- Information Architecture

I'm a UX Engineer who crossed over from a decade in high-end hospitality, events, and operations — and brought everything that matters with me: reading people quickly, solving problems under pressure, and designing experiences that work for the human in front of you, not just the spec.

I design and build end-to-end: user research, wireframes, high-fidelity prototypes in Figma, and production code in HTML, CSS, and JavaScript — including AI-integrated features and usability-tested case studies.

I want to work on products where the answer to "does this make someone's life better?" is always yes — and I want to belong to the team that makes sure it does.

CERTIFICATIONS

AI & Software Development

Le Wagon Ltd, Dec 17th 2025

Built and deployed full-stack, production-ready web applications using HTML, CSS, JavaScript, Bootstrap, Ruby on Rails, and SQL. Integrated AI features via OpenAI APIs, real-time functionality with WebSockets, and search with Algolia. Used Git and GitHub throughout.

Google UX Design

Coursera, March 4th 2026

Applied the full UX design process across case study projects — from user research and usability testing through to wireframing and high-fidelity prototyping in Figma. Grounded in accessibility, inclusive design, and evidence-based design decisions.

PORTFOLIO PROJECTS

AI-Powered CV Coaching Tool

Le Wagon Bootcamp → Solo UX Project, April 2026

An AI-powered CV coach that helps job seekers articulate achievements, optimise for ATS screening, and generate polished, role-targeted CVs through a guided chat experience. Built as a group project during bootcamp, then extended solo through a full UX design process — including 8 user interviews, 5 usability studies, and two rounds of iterative design.

AI & INTEGRATIONS

- Anthropic (Claude Code, Claude Design)
- OpenAI (API, Codex, Content Generation)
- Builder i.o
- WebSockets
- Algolia
- Elasticsearch

SOFTWARE DEVELOPMENT

- HTML5
- CSS3 (Grid, Flexbox, Animations)
- JavaScript (with Node.js)
- React (currently learning)
- Typescript (currently learning)
- Bootstrap
- Ruby on Rails
- SQL (SQLite, PostgreSQL)
- Version Control (Git, GitHub, GitHub Pages)
- Rest APIs

OPERATIONS & SYSTEMS

- Inventory Management
- Budget & Expense Reporting
- Staff Scheduling
- Database Management
- ePOS Systems (Lightspeed, Horizon/Tissl)
- Stocktake Online
- Adaco

PEOPLE & LEADERSHIP

- Team Leadership
- Mentoring
- Recruitment & CV Screening
- Training & Onboarding
- Performance Management
- Event Planning & Coordination

EXPERIENCE

Dinings SW3

Bar Supervisor | London. 2024 - 2025

- Led the bar team service & operations in collaboration with the kitchen to align bar offerings with the restaurant's Japanese-European menu strategy and sustainability ethos - finding the common ground between two teams with very different workflows and competing priorities.
- Developed SOPs across health & safety, purchasing, and stock management from scratch - reducing waste and bringing consistency for new hires & day-to-day service.

Broadwick Soho

Bartender → Senior Bartender | London. 2023 - 2024

- Joined as one of two bartenders on the core opening team for a five-star Soho hotel launch - building Flute Bar operations from the ground up, developing the cocktail and spirits menu, writing staff training manuals, and establishing the stock systems and procedures.
- Flute Bar has since been nominated Hotel Bar of the Year by Hotel Magazine, among other industry awards.

Do & Co International Catering Ltd.

HR & Recruitment Coordinator / Finance

Administrator | Global. 2019 - 2020

- Trusted with sensitive, confidential documentation from early in my career - managing payroll, social security, and employment contracts for up to 400 staff members across the global Formula 1 calendar, working independently at events and remotely between them.
- Led recruitment and staff allocation across Formula 1, UEFA Champions League, ATP Madrid, and EURO 2020 - building and managing a team of around 20, running training days for new hires, and maintaining the employee database across a fast-moving international schedule.

Do & Co Events & Airline Catering Ltd.

Airline Lounge & International Events Supervisor |

Heathrow. 2017 - 2019

- Supported senior management in preparing and delivering client presentations for British Airways and Cathay Pacific.
- Supervised lounge operations for British Airways, Lufthansa, and Emirates at Heathrow.
- Delivered service across 22 countries at events including Formula 1, ATP Madrid, and UEFA Champions League.
